

Attention LTL Homeowners,

The HOA Board recently approved a suggestion by the Lighting Committee to make a change regarding the Coach Lights next to your front doors. Over the next two weeks we will be installing new bulbs in these Coach Lights.

What this means for you:

- You will never need to change the bulb. In the event it fails, it will be replaced for you!
- The bulb is LED thus it will save money on your energy bill!
- It has a built in "Dusk to Dawn" feature, which means it turns itself on and off.

What we need from you:

- The only thing we need from you is to make sure the power is always on.
- If you have a built-in timer, you need change the setting from Auto to Manual and turn it on.
- If you have a regular switch, just turn the switch on and leave it on.
- That's it! We will do the rest!

The benefit to the Community is a brighter, safer, more uniform look to our beautiful Lane! If you need help with your timer you can contact John O'Malley @ (847)789-6611. Once we have completed installation of the bulbs, we will attempt to contact Homeowners whos' lights are not on.

Thank you,

LTL Lighting Committee & HOA Board
